Grey Street Dentist is proud to be servicing patients from St Kilda, St Kilda East, Balaclava, Elwood, Albert Park, Middle Park, Windsor and Prahran areas since the 1970's. Dr. Hyun Soo Yu is now leading the team which has hosted generations of dentists. We have lots of patients who have been attending our practice for many years, whom we have seen grow up and have their own families!

In addition to outstanding dentistry at our dental clinic St Kilda, our difference is the way we treat our patients, something we are tremendously proud of. For our team, it is not about just coming in from time to time for an emergency or repair, it's about illustrating the importance of regular maintenance as well as building relationships through trust and familiarity. As most of our patients agree, we pride ourselves on giving each and every person that walks in the door that personal touch.
