Welcome to Silk Dental, Dentist in Macclesfield. We are a friendly group of dental professionals committed to providing the essential care you and your family require for long-lasting beautiful smiles and good oral health. We believe in listening to your expectations and concerns, providing personal, in-depth patient consultations, and developing a treatment plan that works for you and your desired results.

When planning the best treatment for you, Silk Dental prioritises your desires and preferences. At our Orthodontics, we offer discreet Invisalign clear braces for a beautifully straight smile that is virtually invisible and designed to fit seamlessly into your daily life. If you're missing one or more teeth, we can talk about how All-on-4 dental implants can boost your confidence and make you proud to show off your smile again. We also offer other treatments such as Dental Crowns, Bridges, Composite Bonding, Dentures, Teeth Whitening and Tooth Extraction.

We take pride in going above and beyond to fulfill your requirements, whether you need an emergency dentist, multiple appointments to makeover your smile, or simply need to schedule your routine appointments. We strive for a relaxed, friendly atmosphere in our welcoming dental clinic, making you feel at ease throughout your visit.

Sedation dentist is available for patients who are nervous about visiting or want to feel more relaxed during treatment. This safe procedure can relax you enough to be comfortable during long or in-depth procedures while still allowing you to communicate with your dentist.

If you want to take care of or improve your smile, then contact us today for a consultation. We guarantee to look after you.
