Studco is Australia’s largest Sales and Installation Studwelding company. Originally founded in Perth in 1984 out of a garage. Studco was groundbreaking in the local Studwelding and Stud scene. But in the last 10 to 15 years, Studco has grown rapidly to now become an Australia-wide force in Studwelding. With our primary warehouses in Perth and a third-party warehouse in Sydney, we can ship studs to anywhere in Australia.
