India’s most comprehensive web and app-based job and candidate search platform for the education sector.

A one-stop solution for teaching jobs and non-teaching jobs in India. Employers need access to a relevant pool of employees to meet their needs and vice-versa. Jobs in Education bridges the road to the talented teaching and non-teaching staff.

With over 18 years of experience, knowledge, know-how, and understanding of the pain points of the recruitment process in the prevailing education system, we intend to save time and money by providing a simplified and integrated recruitment platform which allows relevant matchmaking between the stakeholders, with a short turnaround time. The platform pays equal attention to teaching jobs and non-teaching jobs.
