When owner Brett, a 3rd generation concreter, observed how the art of concrete grinding and polishing was taking concrete surfaces to a whole new level, he was hooked.

Ever since making a full transition into the industry in 2014, our passionate team has been driven by the pursuit of creating the perfect floor. The challenge of turning a raw concrete slab into a piece of real craftsmanship is our daily motivation.

Open, honest and professional communication is the backbone of what we do. We offer an experience. From the initial contact when you reach out to us, to admiring your new floor at the end of the job, we make sure we keep you informed and feeling comfortable throughout the whole journey.

Services: Indoor & outdoor concrete flooring
