Company logo

We are a small family company founded in 1991 with headquarters in Rabac. Rabac is a small town located on the eastern coast of Istria and has access by sea to the most beautiful and hard-to-reach beaches. The reason why many of our guests decide to rent a boat from Rabac is that you cannot find such beaches in the whole of Istria and Kvarner.

We have been renting boats since 1998. We are located on the waterfront in the center of Rabac above a large parking lot. Our guests can come with their car directly to our vessels, and have a quick and easy transfer of their family and belongings to the desired ship. The reason why we are the best is because we constantly invest in our vessels and have excellent support in providing everything our guests need.
