Perth Solar Force are 100% owned and operated here in Western Australia. Perth Solar Force’s staff have more than 50 years combined experience in Electrical, Electrical Logistics, Solar installations, Management, Solar Electrical and People Management. We are intent on bettering all of our competitors not only on price but especially on workmanship and customer service. We will never over promise or under deliver. We source, supply and install premium solar system components and packages across the Perth metro area and regional areas of Western Australia. We accommodate all kinds of customer requirements from additions to existing solar systems, complete residential installations, small business or large commercial applications.
