Sunshine Early Learning Centre caters for kids between ages 6 weeks to 6 years. Our aim is to provide a home-like environment for kids outside of their home, where they can learn and play. We actively communicate with parents to ensure consistency in their daily routines.

At Sunshine ELC, we are committed to developing Educational Programs that tailors to each child’s interest and abilities. We aim to develop each child to their full potential, and we have Daily Stories which are published to parents online to track each child’s progress.

Services: Child Care and Educational Programs
