Company logo

Circuitlink was established over 30 years ago and specialises in the design, manufacture and sale of diagnostic equipment and telematics solutions. Owned and headquartered in Australia, our team is focused globally on the local customer to tailor our solutions to deliver every time for our clients. Our range of vehicle testing equipment and **telematic solutions** is predominantly suited to the automotive, **mining**, **commercial fleet**, vehicle compliance, transit and **rail industries**, along with other niche vehicle markets across the private and public sectors. Our brake test equipment and tinted window tester are industry benchmarks and sold around the world for roadworthy testing and mine site vehicle compliance testing.
