Are you considering permanent facial hair removal? Check out Permanence. We are a reliable electrolysis clinic offering the innovative multi-probe galvanic electrolysis method to eliminate your unwanted hair with life-long results. Our trained and experienced electrologists will carefully assess your requirements and create a customised plan that works best for you. What's more, our electrolysis treatment is safe and effective for all facial regions, including the eyebrows, upper lip, sides of the face, and chin. Call us today to schedule your appointment.
