The Cottages Senior Living takes a different approach to memory care. Our residences are designed from the ground up, with all of the furnishings, layout and finishing touches that feel like home. Our outdoor spaces are the largest you will find in any memory care residence, with generous walking paths, outdoor dining, gardening and plenty of sunshine. Each of our resident halls have fewer resident apartments, spacious living areas, activity kitchen and dining room. This allows for a more personalized level of care in a setting that feels just like home.
