Buying a home is an emotional and stressful period. Not only you need to trust yourself to make the right decision, but you need to know the true condition that the home is in. Let us relieve some of that stress by inspecting your house to ensure that you are properly protecting your investment. We offer a professional home inspection by providing unbiased information about the home. Our property inspectors wants to give you the knowledge you need to become a happy homeowner. Our home inspectors at Total House Inspection will objectively identify material defects in the systems, structures, and components of the home, in adherence to or exceeding national, state, and industry regulations and standards.
