The Clifton Mortgage Services team has over 22 years of Mortgage Industry Experience, and has the infrastructure, expertise and knowledge to guide you in your real estate endeavor no matter how large or small. Clifton Mortgage Services is committed to earning your trust and business by exceeding our clients’ expectations, delivering on promises, and maintaining the highest standards of business principles. We offer a wide array of mortgage programs and we have multiple investors that we sell loans to. This allows us to get the best rate possible for your unique set of qualifications. We take pride in personal service and providing you with the best option to fit your needs. Thus, we do not post rates that are based on some set of qualifications that no one would ever qualify for. Instead we believe in a personalized rate quote.
