E-futures represents the online trading platform for E-Futures International. We wanted to dedicate a portion of our company to assist E-Futures International because of its strength and breadth so that we could give our consumers the finest service possible. We ensure you provide the best financial stability when you trade with our platform. We were established in 1988, are NFA and CFTC members, and have won the Reader's Choice Award from Stocks & Commodities Magazine. And understand the importance of stability and safety expected by our clients when they come on the trading platforms. These are the essential pillars of a brokerage relationship. We have been in the market as long as the 80s, and hence you be sure of our experience and brokers' expertise. Our brokers have up to 20 years of experience in the industry, and they were among the first to specialise in online futures trading after working on trading floors for many years. What makes us different and best-off others is our integrity. You must trust your broker's financial honesty to feel secure dealing with them. Those crucial aspects component of the relationship we provide that honesty. All customer money is kept in a segregated account at an authorised financial institution by E-Futures Clearing Firms in line with the Commodities Exchange Act. They are never mixed in with the company's or its owners' money. We charge you a few of the lowest and least expensive commissions and margins with us. We provide day trading margins as low as $400 and charges on futures as low as $1.95. If you want to enquire more, give us a call, or you can also sign up for our demo online futures trading program.
