Kent Smile Studio is a dentist in maidstone offering a very wide range of modern general and cosmetic dentistry for all the family. From straightforward treatments such as simple fillings right through to complex restorative dentistry, our highly trained and experienced dentists will be delighted to help maintain and enhance your smile.

We are particularly proud of our excellent track record in placing dental implants, bringing renewed self-confidence and full mouth function to many people who previously suffered from missing teeth.

Alongside our dental treatments, we also offer the latest in facial aesthetics to help chase away those premature signs of ageing. Indeed many of our patients now choose to complement their new smiles with wrinkle reduction and dermal fillers to help bring a more youthful look.

Patient care really is our top priority - we always listen to your needs and expectations to help us create exactly the right treatment plan for you.

Kent Smile Studio is a cosmetic dentist in Maidstone specializes in cosmetic dental treatments, including teeth whitening, veneers, cosmetic bonding, dentures, dental sedation, root canal treatment, dental implants and teeth straightening treatments.
