The ophthalmologists and retina specialists at Vitreous Retina Macula Consultants of New York are internationally known leaders in diagnosing and treating retinal diseases.

VRMNY retina doctors have trained and taught at some of the world's finest and most respected academic institutions. The physicians who comprise the best retina specialists in New York are experts in vitrectomy surgery and hold academic appointments at Lenox Hill Hospital, New York University, and the New York Eye and Ear Infirmary.

Our ophthalmologists in New York City specialize in treating all medical and surgical retinal conditions, emphasizing macular degeneration and diabetic retinopathy, the two leading causes of retinal vision loss.

With state-of-the-art New York ophthalmology centers in Manhattan, VRMNY is the largest retina vitreous center in the New York Metropolitan area.

Our New York ophthalmologists and eye doctors publish more in the foremost peer-reviewed journals than any other private or academic group in the United States. The practice devotes its time and resources to research and developing new diagnostic and therapeutic strategies. Many current concepts in retinal disease and treatment recognized worldwide were invented at VRMNY.

For more information about the Vitreous Retina Macula Consultants of New York, our doctors, or to schedule a consultation with Dr. Lawrence A. Yannuzzi, MD, please contact our ophthalmology practice.
