Talaria – Podiatrist of Thornbury was founded in 2017. Our vision was to establish a modern Podiatry clinic in Melbourne’s Northern suburbs that cares for people of all ages and educates people about their feet. Our team is committed to providing a quality personalised experience in a warm and welcoming environment. We assess, diagnose, treat and prevent pain and injuries to your feet, ankles and lower limbs, using a variety of methods and modern treatments tailored to meet your needs. Our location on High Street allows our patients to easily access other nearby allied health services, including GPs, pharmacies, naturopaths, osteopaths, physiotherapists, pathology clinics and dental clinics. Book online to schedule an appointment today!
