Company logo

Company logo

Sunblock solutions was started to offer shutters, blinds and awnings with market high-grade products at competitive pricing. We use the same material and manufacturing as “big” name organisations and in fact, in many cases, vastly superior manufacturing and materials at the Banyo factory.

At sun block solutions, we comprehend that purchasing new window goods for your home or working environment is a significant venture. We believe you should be totally certain that when you pick us to furnish you with new custom or instant interior shutters, drapes, window blinds and outdoor awnings for your Brisbane or Sunshine Coast home, you've pursued the ideal decision.
