Company logo

Platinum Partner aims to support the cloud community by helping customers to secure better pricing and support, Salesforce partners to streamline their license sales process and receive a share of the license revenue and software providers to extend their reach to more customers in need of their solutions.

We provide the ultimate, end to end software re-seller service. We help our clients across APAC by using the latest technology, to get your prospects, and future clients to come to you. Our experienced team of Sales and Account management professionals guide and train your prospects through the sales and onboarding process, and offer a complete account management service, to help you maintain your client base and reduce churn.

Our Service:

- Software Reselling
- Work Management Software
- Project Management System
- It Management Software
- Cloud Based Solutions for Business
- Online Work Management System
- Salesforce CRM
- Project Management Software
