RV WI-FI+ offers a premium WiFi solution for RVs & Caravans. Featuring 12volt power, no lock-in contracts, a data-free streaming media centre & external 3G/4G and WiFi antennas. Customers can also choose Australian Data providers, with the RV Wi-Fi+ offering an internet range of 40m from your caravan!

Our caravan WIFI kit is suitable for all kinds of adventures. Take your family on a road trip or camping and have reliable internet at your fingertips. RV WIFI works off the Cel Tower network and can be accessed using any Australian Data provider. Open Google Maps to see where you are going, or watch the latest Netflix or your favourite streaming service, with RV WIFI’s camping WIFI solution, you’ll stay connected.

RV WIFI is easy to install and can make your trips so much more enjoyable.

Get in touch, and we can help answer your questions.
