Company logo

Designer Plants AU is more than just an artificial greenery supplier; we are a socially responsible company committed to making a positive impact. Proud supporters of Guide Dogs Victoria, we believe in giving back to the community. Our Melbourne showroom features a donation box, allowing customers to contribute while exploring our range of lifelike green walls and plants.

Our commitment to social responsibility extends to our products, which are made from earth-friendly materials. We are the first in the world to offer 100% recyclable green walls, reflecting our dedication to sustainability. Designer Plants combines quality, realism, and social responsibility in every product we offer.
