Benjel Chimiste Conseils Inc was for a long time managed by Mr. Luc Salm, a professional chemist, specializing for more than 25 years in the analysis of air quality in residential, commercial and industrial buildings. Now retired, Mr. Benjamin Salm has taken over the management of the company.

Benjel has built a solid team of professionals and dedicated people for the company. In full expansion, Benjel's team includes chemists from the Ordre des chimistes du Québec, microbiologists who are members of the Association des microbiologistes du Québec, experimental technicians and a laboratory participating in the AIHA's EMPAT program (American Industrial Hygiene Association).
