Casey Building Consultants offers a range of services in Cranbourne, including house inspections, **pre-purchase building inspections**, building and pest inspections, and comprehensive building consultancy services. Our expertise is reflected in detailed reports.

We are well-known for our professional building inspections and consultancy services. At Casey Building Consultants, we provide consultations on passive design, energy rating, and the thermal performance of both existing and future homes. Our team includes qualified professional building consultants dedicated to serving you.

In addition to pre-purchase house inspections and **new home inspections**, we provide expert advice on various building materials and phenomena related to residential buildings of class 1A and class 10, in accordance with NCC 2019.
