Tianjin Renjie Industrial Material Technology Co., Ltd. was officially registered in September 2007. It is a technology-driven enterprise specializing in the research, development, production, and sales of rubber products.

The company's main offerings include steel wire braided hoses, steel wire spiral hoses, high and low-pressure rubber hoses, fabric hoses, food-grade hoses, PTFE hoses, metal hoses, and more. They also produce various conveyor belts such as standard, heat-resistant, fabric-core, and flame-retardant options. In addition, as a supplier of **wholesale hydraulic cylinder seal kits**, the company manufactures seals in different materials and specifications. A wide range of filter elements is also available.
