Ashbourne Road Dental, a private dentist in Derby with an excellent reputation for patient care. Our vision has always been to create a dental practice that reflects quality, has a caring attitude towards our patients, and brings together a team that strives to do its utmost for patients every single day.

We provide patients with the same level of care we would afford our family and friends, and the practice has a community and family ambience.

Established for more than 30 years, Ashbourne Road Dental is an independent dental clinic that offers both preventative, cosmetic and facial aesthetics treatments such as crowns and fillings, composite bonding, veneers implants, anti-wrinkle treatment and lip fillers.

The practice is fitted with the latest modern equipment and diagnostic software to reduce waiting and treatment times for our patients.

We are an independent dental clinic serving patients throughout Derby, Derbyshire, Private and NHS.
