Company logo

China Topper Cam Locks Co., Ltd. is a leading manufacturer of cam locks in China, specializing in the design and production of high-quality locking solutions for over a decade. Our diverse product range includes tubular cam locks, flat key cam locks, digital combination cam locks, pin tumbler cam locks, and disc tumbler cam locks, all crafted from top-grade materials such as zinc alloy, brass, and stainless steel.

Located in Xiamen City, Fujian Province, we benefit from convenient access to both harbor and airport facilities, ensuring timely delivery of our products to customers around the globe. As a one-stop cam lock solutions partner, we are dedicated to meeting the needs of our international clientele.

Topper Locks is proud to have achieved ISO 9001:2008 certification, demonstrating our commitment to quality. We have implemented a comprehensive quality control and assurance system across all stages of production and management, ensuring that every product meets stringent quality standards.

To uphold our quality promise, we have invested in advanced quality control equipment, including lifespan testers, microscopes, projectors, Rockwell hardness testers, salt spray testers, and torsion testers.

With robust research and development capabilities, we excel in manufacturing conventional locking mechanisms. Our customer-oriented approach and high production capacity in mold development, conventional lathes, auto-lathes, punching, die-casting, and assembly set us apart in the industry.

Gotta know about Google SEO.
