China Valve Industry Co., Ltd. has been a leader in the valve manufacturing industry since its establishment in 1989. Located in Fujian, our state-of-the-art facilities span over 200 acres, with a 5,300-square-meter factory building. We proudly employ around 500 professionals, including 30 highly skilled technicians, and have built a strong reputation for quality and innovation, bolstered by our dedicated technical center and research team.

We offer a comprehensive range of valves, such as ball valves, gate valves, safety valves, blind flanges, and weld neck flanges, crafted from high-quality materials including forged steel, cast steel, and cast iron. All our products are designed to meet international standards, ensuring reliability and optimal performance across various industries.

At China Valve Industry Co., Ltd., we prioritize quality and customer satisfaction, which has enabled us to expand our reach to global markets, including Southeast Asia, Canada, Germany, Italy, Australia, Pakistan, and Singapore. Our international success underscores our commitment to delivering superior valves and outstanding service.For more know more about China Manufacturers.
