The expertise and dedication of Dr Bhavini Shah make her a trusted name in oncology care across Southeast Melbourne and Gippsland. With a medical degree from India and advanced training in Melbourne, she specialises in breast, gynecological, and skin cancers. Dr Shah's extensive experience includes serving as a principal investigator for clinical trials at Latrobe Regional Hospital and contributing to cancer genetics research at the Peter MacCallum Cancer Centre.

Dr Shah offers a wide range of services, including chemotherapy, immunotherapy, oral anticancer treatments, and ongoing surveillance and survivorship support. Her compassionate approach ensures patients receive personalised care informed by the latest research and clinical standards. For referring specialists, surgeons, and GPs, partnering with Dr Bhavini Shah means providing patients with access to a highly knowledgeable and caring female oncologist dedicated to improving cancer outcomes. Choose Dr Shah for expert oncology care that prioritises patient well-being.
