Company logo

Since its inception in 2008 Xtreme has evolved into a company that is innovative and efficient in the construction industry and related industries. Our operations are well-organized and is executed with passion and dedication.

Our expertise and drive have led us to become the top companies in the renovation and construction in the UAE.Since our inception, we have been focusing mostly on civil work that involved masonry and waterproofing that helped us grow into a specialist in this area. Xtreme is a trusted fence supplier in UAE, known for its expertise in providing durable and high-quality fencing solutions for various needs.

With the development of technology, we have expanded our services to include modular construction and fit-out work. We now provide the best products and services with confidence and dedication.

We are a group of highly dedicated and trained professionals who are committed to providing and supporting our clients by providing the best products and services, with confidence and dedication.
