Macarac is one of the leading 19" rack and accessory solution providers of commercial, corporate, and industrial data storage systems, from small storerooms to huge ones. Some of these storage systems include free-standing data cabinets, data rack accessories, open rack stands, Ethernet/network cables, and many more. Apart from this, 19” open racks offer convenient rack mounting solutions and are ideal for mounting in offices, cabinets, cupboards, home theaters, media rooms, or under a desk. Macarac offers high-quality free standing data cabinet, providing robust and efficient storage solutions for IT and networking equipment.

Macarac provides high-grade Australian-made 19” rack panels, LCD monitor mounting brackets, and XLR rack panels with custom manufacturing options, trade discounts, etc. in an affordable range. Our design experts have hands-on experience that assists you with everything in brief. If you require more storage equipment to gain capacity or are looking to increase the expansion of your existing data storage system, you just need to visit our website to view the wide range of products and solutions offered by Macarac. Browse through our range of products in our online store, which will give you an idea of our data storage solutions. For more information, contact us using the below details. We are here for you.
