Pest Proofing Solutions has over 15 years of experience providing Brisbane pest management in commercial and residential settings. We offer a variety of thorough pest control services that can eliminate termites, ants, spiders, cockroaches, rodents and other vermin. Family owned and operated, we have built our reputation by furnishing the highest quality service. Our specialists are highly trained, licensed and dependable.

We supply comprehensive general pest control solutions for standard pests such as mice or spiders. This service also includes providing you with a prevention plan to thwart future occurrences. Our team can survey residential and commercial building sites for infestations by conducting a pre construction pest control inspection.

We also offer termite inspection services and termite pest control to help you check and eliminate these troublesome insects. Our experienced team provides termite solutions Brisbane trusts to be reliable as well as safe for family and pets. Furthermore, we supply termite protection Brisbane wide to ensure your property is pest proof and capable of preventing termites from infesting your home.

In addition to eliminating homes and buildings of insects, we offer bird removal to rid your property of large flocks. When trapping is not a viable option, we also provide humane and legal bird shooting services to prevent disruptions to your business. Additionally, we supply on site possum removal that is non-lethal and safely returns the animal to the wild.

Regardless of whether you need an inspection, elimination or removal call on Pest Proofing Solutions for all your professional pest control needs.
