Looking for a reliable, full-service demolition contractor for your project? Gumdale Demolition (QLD) Pty Ltd is a family business with over 25 years’ experience in residential demolition, commercial demo and industrial demolition.

We’ve partnered with homeowners and businesses all across Queensland to deliver professional and affordable demolition work. We have a complete range of demolition machinery and heavy haulage vehicles to handle projects of any scale and size.

Our range of residential demolition we specialise in includes house demolition, interior demolition services as well as shed and pool demolition. Commercial projects we have undertaken include commercial building demolition, concrete removal, commercial interior demolition and soil removal. We also specialise in industrial demolition and offer industrial asbestos removal, chemical plant demolition, civil demolition, wharf demolition, warehouse demolition and mine site demolition.

We are one of the few Brisbane demolition companies who offer a complete service, managing all aspects of the demolition process, from start to finish. Our team takes the time to properly assess your domestic, industrial, or commercial project and provides advice to overcome challenges and carry out operations to the highest standards.

As one of the leading demolition businesses in Queensland, the health and safety of our team and clients are at the foundation of everything we do. All of our field operators are fully licensed, insured and trained to ensure competency in our Safety Management System.

When you’re ready to tear it down, get in touch with one of the most experienced and trusted Brisbane demolition companies, Gumdale Demolition!
