Physical Precious Metals Dealer. We assist clients to buy and sell physical precious metals like gold, silver, and platinum. We offer clients vault storage solutions where they can have their gold, silver, and platinum bars & coins stored on an allocated & segregated basis. This ensures that clients& products/holdings are fully secure, insured and are easily bought and sold on a phone call. We also work with Questrade to offer clients the ability to buy gold & silver in their registered accounts (RSP, TFSA, LIRA, LRSP, LIF, RIF, RESP) where the products are fully allocated, segregated and stored in a vault facility outside the banking system. Finally, Guildhall offers a unique opportunity for clients to acquire very rare natural fancy color diamonds. These are hard assets that continue to grow in value every year.
