Company logo

Since 2009 Air Doctors has been involved in assisting businesses and households with hazardous removal services such as asbestos abatement and remediation. We Initially established Air Doctors as a service company involved in the removal of odours of all types, however today our services include Asbestos Abatement and removal, Popcorn Ceilings, floor tiles, Indoor Air Quality Testing for asbestos, On-site Asbestos Inspections and much more.
We offer services in Toronto, Mississauga, Brampton, Hamilton, Burlington, Kitchener, and the GTA. At Air Doctors we have a team of professionally trained technicians and have been certified by regulatory bodies like Ontario Ministry of Training Colleges & Universities; Asbestos Abatement Worker, IICRC; AMRT (Applied Microbial Remediation Technician), IICRC; WRT (Water Restoration Technician). Having a team of professionals helps us to respond quickly, listen well and do our best to guarantee your satisfaction. Our mission is to protect and create safe environments by providing better residential, commercial and industrial air quality.
