Kozijnen Unie, is the specialist in high -quality window frames for contractors, construction companies and the DIY DIY. We understand that quality, sustainability and service are essential for your construction projects. That is why we only supply frames that meet the strictest European standards and have all the required certifications. With our customer -oriented approach and competitive prices you are assured of the best solution for your project.

Whether you are looking for plastic or aluminum frames, we offer a wide range that is produced completely customized. Thanks to our efficient production and logistics, we can guarantee short delivery times, so that your construction project is not delayed unnecessary.

Why choose Kozijnen Unie?

We distinguish ourselves through quality, service and flexibility. Our frames are not only sustainable and low in maintenance, but are also supplied with excellent guarantees and at competitive prices. You also benefit from expert advice and support at every step of your project.

Our spearheads:

One of our craftsmen comes to help for a day and explains how the frames should be placed.

Quality guaranteed - Our frames are fully produced according to the strict European standards, so that you are assured of sustainability and safety.

Safety first- all frames are equipped with high-quality hinges and locks that meet the applicable police quality marks for burglary resistance.

Flexibility in glass - We offer all types of glass, from standard HR ++ and triple glass to soundproof and safety glass.

Extensive color choice - You have the choice of all possible colors and films, so that the frames perfectly match your project.

Personal Dutch Contact - Our experts are ready for you via WhatsApp, telephone or mail, so that you can quickly.
