With 16+years of experience, Daiquiri Hire Melbourne brings you a range of slushie machine units that make your events more enjoyable with quick refreshments with less workload and hassles. Our products exceed much beyond mere mocktail machines. We offer a fairy floss machine, juice dispenser, soft serve/frozen yoghurt machine and other products on rent at reasonable prices. We have you covered, whether you need a carnival style slurpee machine or a hot chocolate fountain to boost your business.

Our slush machines are an excellent alternative to regular water or soda in trade events, fairs, seminars and meetings. Or for anyone looking to have a birthday party, wedding, or any type of function. Our machines are easy-to-operate and come in a variety of flavours, including blueberry, mixed berry, margarita, and more.

Daiquiri Hire Melbourne stocks great Australian made machines, including fairy floss, soft serve, popcorn machines and even a karaoke jukebox. These units lessen work and allow you to focus on guests more while bringing a new fun element that makes the event more enjoyable!
