Stockx shoes has 10 years experience in offline store sales ,5 years experience in online website store sales.

Everyone knows that there is an important industry in Putian, China, that is replica sneakers. They replicate Nike, Yeezy, Adidas, Air Jordan, etc. You can find any replica luxury goods in this city.

Putian has a very long history of shoe manufacturing, with sophisticated technology, advanced equipment, and standardized production processes, which makes many replica shoes comparable to retail shoes.

After years of accumulation, there have been many well-known fake shoe sellers (or called brands) in the copy shoe market, such as Pkgod, LRJ, H12 factory, OWF,XP, etc.

Now, stockxshoes has reached cooperation with these replica shoes brands, we can get the products directly from their factories, and the prices will be relatively low. We will carefully select their top quality products and sell them at low prices.

We have integrated high-quality replica shoes brands and reached cooperation. For some brands, we are even one of the few distributors. Our aim is always to bring the top quality replica to more fans who love replica shoess at the best price.

And since 2013, we have had our own factory, and our own brand, our own best batch shoes.

stockxshoes provides perfect customer service, including quality inspection, delivery service, customs service, etc.
