Cohen and Fitch LLP law firm located in New York dedicated to the vindication of Constitutional Rights of New York City residents. We practices in Criminal Defense and Civil Rights Litigation in the Federal and State courts in the five boroughs of New York City. Many people know they each have constitutional rights that shelter them from abuses of authority; unfortunately, not many understand how to enforce those rights properly. Quite often, the power structures that exist in criminal justice and employment can be intimidating and discouraging for the common person.
