Established in 2003, **China Valve Gasket Bolt Nuts Co., Ltd.** has become a trusted name in the fabrication services industry, serving key sectors such as Oil & Gas, Petroleum, Marine, Oilfield, Mining, and Heavy Industry. With a strong focus on pipeline construction and maintenance, we have grown into one of China’s leading valve and pipeline component manufacturers.

Our extensive product portfolio includes **valves, gaskets, packings, bolts and nuts, flanges**, and other essential pipeline accessories. Backed by decades of experience and a deep commitment to quality, we provide professional, high-performance solutions to clients across the globe.

As a **one-stop service provider**, we aim to simplify your procurement process and reduce overall project costs. Our comprehensive offerings—covering **pipes, fittings, flanges, fasteners, gaskets, valves**, and **spare parts**—are certified by **API, CE, TUV, and ISO**, ensuring consistent quality and compliance with international standards. Our products are widely used in **oil rigs, nuclear power plants, chemical facilities**, and **heavy industrial projects**.

We take pride in our role as a premium supplier, working closely with clients to deliver reliable, cost-effective solutions. Supported by an experienced team, skilled workforce, and advanced production facilities, we ensure the **timely and efficient** execution of every project. Whether you're an EPC contractor or managing a large-scale infrastructure project, **China Valve Gasket Bolt Nuts Co., Ltd.** is your dependable partner from planning to delivery.Know more about China Manufacturer
