Company logo

Gatemaster Australia provides a full range of automated gate solutions for residential, commercial and rural applications. Gates can be custom made in our Perth workshop in a variety of styles and finishes for swing, sliding, cantilever and concertina applications.

A range of ready-made standard size gates and fence panels are available in our Maddington warehouse. This includes pool fencing, boundary fencing, picket fencing and garrison fencing. Installation can be arranged by Gatemaster Australia or we can provide you with the products and advice to install yourself.
