Established in 2015, UKIC is one of the best commerce coaching classes in Gujarat. Through hard work and dedication, our faculty passionately works towards improving students' performance. Teaching a wide range of students, 11th and 12th-grade GSEB and CBSE at the school level and B.com at the college level, we have excelled in the field of teaching over the years. The reason behind this is nothing more than our hard work and perseverance. We have always believed that every student is unique in his/her own way. That is why we work hard to reach them personally so that we can understand their unique perspectives. We at UKIC explain the concepts of commerce to the students in such a way that along with academic knowledge, they gain practical knowledge which shall help them in future. We at UKIC are experts at bringing out the creativity in the students, especially in the field of commerce. UKIC is therefore known for its triumph as one of the well-known commerce classes for 11th and 12th as well as for B.Com. We have also been giving online lectures for commerce since last four years, that is even before the coronavirus lockdown. Therefore, due to our experience, our online teaching methods have proved to be more proficient than any other online commerce classes of Gujarat. Instead of using separate platforms like Google Meet and Zoom for conducting live lecutres, we have a unique platform that makes online classes even more interactive. Even in online courses, we provide every necessary thing, from notes to lectures and tests to assessments, that is present during offline classes. Believe us, UKIC Online's teaching method will make you forget about the digital barrier. Our tried and tested teaching methods have indeed received tremendous appraisal from both parents and students and have proved to be very efficient in the online teaching process. Our vision is to significantly transform the online learning experience through personalized teaching. Therefore, UKIC is the best online class for commerce. So what are you waiting for? Enrol now and start your journey with us today to improve your academic performance!
