Company logo

Clinivex is an ISO 9001:2015 certified worldwide leading manufacturer and supplier of high-quality innovative research chemicals, pharmaceutical reference standards, life science products, primary care products, laboratory consumables and equipment to the scientific community across USA and Canada and 2018.

The primary markets we serve are pharmaceutical & biotechnology companies, universities, hospitals, research institutions, government agencies, and the environmental & process control industries as well as the clinical laboratory. We carry a comprehensive line of premium educational products, primary care products, laboratory products, reference standards from leading manufacturers, within the scientific market.

We are continually looking for ways to improve ourselves and our business. The Clinivex online catalog is consistently updated with the latest products and helpful information. Our hope is that our customers enjoy our products their experience and as much as we enjoy supplying them.
