HMC is the official e-commerce store run by Khan’s. HMC Holds and Sells New / Used / Refurbished Industrial Automation, Marine Hydraulics Equipment, **Engine Control System Equipments**, and Marine Machinery Parts. We know that nowadays it is very difficult to find 100% genuine, good quality, fully serviced parts in this sector, which is why we are constantly making efforts to deliver the right solutions to the industry. Also, the HMC team connects with clients and gathers feedback on where we should focus more to build better business relations, values, and prosperity.
