Navair International Pvt Limited is a leading name in passive fire protection, specializing in fire-rated doors and fire curtains. Established in 1982, the company has built a strong reputation for delivering high-quality, fire-resistant solutions that meet international safety standards. With a commitment to innovation, durability, and safety, Navair offers a range of steel, wooden, and glazed fire-rated doors, designed to withstand extreme heat and prevent fire spread. Their advanced fire curtains provide an additional layer of defense, ensuring both residential and commercial spaces remain protected. Through continuous research and development, Navair integrates cutting-edge fireproof technologies, making their products an essential safeguard in hospitals, offices, malls, and industrial facilities. By prioritizing safety, reliability, and compliance, Navair India empowers businesses and homeowners with trusted fire protection that enhances security without compromising aesthetics. Their expertise in the industry has made them a preferred choice for architects, builders, and safety professionals across the country.
