Welcome to the Sweetspot Medical Cannabis Dispensary Onley! We are a full-service, patient-oriented dispensary, located in the heart of Olney, MD. We do cannabis differently. Our plant scientists and farmers are experienced in developing sustainable, best-in-class grow systems. What other dispensaries can say they are 100% pesticide free, have an independent stamp of approval for all products, and partner with universities and labs for research? We also support our communities and run a sustainable business. You’ll receive a personalized, education-first approach to finding the right weed products for you. Come in to see our large selection and talk with our highly educated, friendly budtenders.
