Hudson Valley Home Inspections provides homeowners, home buyers, and investors throughout the Hudson Valley with a comprehensive home inspection to ensure that the purchase or sale of the property goes as smoothly as possible. Our goal is to educate our clients, giving them options to make informed decisions. Home Inspector Dave Roth takes pride in HVHI’s work, always striving to provide the most accurate and thorough inspections. “My favorite part of my job is educating my clients. I enjoy it when my clients want to join me for the home inspection because it allows me to show them the potential issues, share my thoughts on how to fix the problem, help them understand the cost of making the repairs, and ultimately help them make quality improvements.
