Foundations Care is a not-for-profit organisation operating across Queensland, New South Wales, and Western Australia, dedicated to providing safe, stable foster and kinship care placements for children and young people who cannot live with their families.

With over two decades of experience, they focus on matching each child with culturally appropriate carers—including weathering diverse backgrounds—while maintaining strong ties to community and identity.

Foundations Care **supports carers** with initial and ongoing training, 24/7 caseworker access, financial allowances, and specialist behavioural support, all designed to build effective long-term outcomes for children and their foster families. Through a trauma-informed and research-based approach, supported by partnerships with academic and community organisations, they deliver therapeutic and evidence-based services aimed at enhancing the safety, wellbeing, and future prospects of vulnerable children.
