SlipStream was created for people who love the water. Instead of jumping between different websites to find rentals, marinas, or dealers, you can now explore everything in one trusted place. SlipStream connects you with verified boat rentals, clubs, marinas, and dealers — all on an easy-to-use platform that’s completely free. There are no hidden fees, no middlemen, and no confusion — just direct connections with real businesses that understand boating.

You’ll also find special offers and promotions available only to SlipStream users. Whether you’re planning your next day on the water, thinking about joining a boat club, or searching for a reliable dealer, SlipStream makes it simple to find what you need. It’s the smarter, modern way to enjoy boating — less searching, more sailing.
