In 2010, Dr. Sandeep Sharma’s family, friends, and colleagues laid the foundation for Interventional Neuroradiology services in North India through a visiting practice model. Interventional radiology, especially neuroradiology, While only a limited number of hospitals provide this service and skilled professionals are few, the outcomes are often remarkable. These procedures involve no incisions or stitches, treat both urgent and scheduled conditions, and allow patients to return home the same day, often with miraculous results and minimal recovery time.
