New Guard Coatings Inc is a trusted supplier of high-performance industrial coatings in the United States. As an authorized Jotun distributor, we provide protective, roofing & cladding, and floor coatings tailored for manufacturing, construction, and infrastructure projects.

Our coatings are designed for durability, corrosion resistance, and chemical protection, ensuring compliance with US industry standards. We help businesses protect assets from extreme weather, heavy industrial use, and environmental damage, reducing maintenance costs and extending lifespan.

With expert guidance, technical support, and a reliable supply chain, we ensure businesses receive the right coatings on time, minimizing downtime and keeping projects on track. Our solutions support contractors, facility managers, and manufacturers in finding the best protective coatings for their needs.
